

Music Playing Procedure

In order that all skaters have the opportunity to skate to their music, when you get on a ice session:

1. Place your music in line next to the music machine.
2. All skaters should go through their music once before a skater plays theirs a second time.
3. A skater's music may be "bumped" up when they have a lesson. After the lesson, the music is put at the end of the music line.

If you have questions, please contact your coach or Ice and Rules
