

Costume Sizing Information: *Preschool/Kindergarten/Junior Club/JPSE Skaters*

Dear Preschool, Kindergarten, Junior Club, & JPSE Skaters and Families,

This year we would like to have the Preschool, Junior Club and JPSE skaters also be responsible for their own measurements and costume sizing.

Please measure carefully and remember that the charts provided are a guideline which cross-references most of the companies we order from. If there is a specific size that you would like to request, which is different than where your measurements are, please make a note of that on your costume form.

The guides on the Costume Sizing Form will show you how to do the measuring. Then, using the sizing charts, match your measurements to the size you feel would be most appropriate.

When measuring and sizing, please remember a few key factors:

- 1) Your child is still growing, keep this in mind. It is almost half a year from when you measure to when you wear your costume.
- 2) It is much easier to alter a costume that is too big than to try and fix a costume that is too small.
- 3) When in doubt, choose the size that most closely matches the skaters' girth measurement.
- 4) We cannot return costumes for a different size. It takes 10-12 weeks to receive the costumes.
- 5) Skaters are responsible for correctly sizing their costume(s). We will order what you specify on your form. If we have a question about your sizing, we will attempt to contact you via the email address provided. Please understand, that it is a process that is completed very quickly in a short period of time. If we need to contact you, we will need a timely response!

Members of the Costume Committee will be available Tuesday, November 3, 6:00-6:45pm and Saturday, November 7: 10:15 - 11:45 am to answer any questions you may have regarding how to measure or how to size.

If you plan to participate in the show, you must complete the **Show Registration Form**, complete the **Costume Sizing Form**, attach your checks for costume deposit and show session and return all of these to the RFSC Office by **October 31, 2009 for JC/JPSE and November 21, 2009 for Preschool/Kindergarten**.

The Costume Committee will review each form and size, and contact you with any questions.

Please contact Missy Thomas, thomfam@charter.net, 529-3660, or Chris Potaracke, toobusy418@yahoo.com, 289-0402 with any questions regarding costumes.

Costume Sizing Form: *Preschool/Kindergarten/Junior Club/JPSE Skaters*

Name _____

Email address of parent to be contacted in case of questions _____

Measurements:

Height _____ (without skates or shoes on) Waist _____

Hips _____ Chest _____ Girth _____

Diagonal Girth _____ Inseam for men _____

Using the sizing chart, select the following (**please select letter AND number size**):

Pant: Letter size _____ Number size _____

Top: Letter size _____ Number size _____

Dress: Letter size _____ Number size _____

If you know a specific size that works for you, please indicate it here: _____

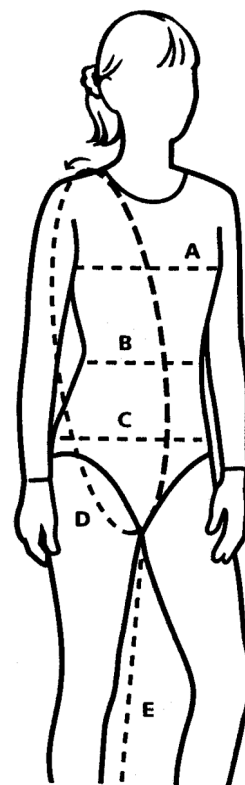

The charts below are examples from different companies' measuring guidelines. If there is a discrepancy between size and measurement we will attempt to contact you via the email address you have provided on the show participation form.

DETERMINING YOUR SIZE

For the most accurate fit, get your measuring tape out and have someone help you measure your body following the instructions as noted. Remember to wear a leotard, swimsuit or undergarments when taking measurements, not street clothes.

Find your measurements on the size charts to find the appropriate size. If the bust size and hip measurements do not correspond with a particular size, the girth measurement should be used as the deciding factor.

- A) CHEST: With arms relaxed down at sides, measure around the fullest part of chest, keeping tape measure parallel to the floor.
- B) WAIST: Measure around natural waistline, the narrowest part of the upper body (not over shirt or pants).
- C) HIPS: Measure around fullest part of the lower body, keeping tape straight and parallel to the floor.
- D) GIRTH: Measure from the center of one shoulder, down the front through crotch and up back to starting point. **This is the most important measurement in determining costume size.**
- DIAGONAL GIRTH: Same as Girth, except go from other shoulder to crotch and back up.
- E) INSEAM: Measure inside of leg, from crotch to below the ankle bone.

NUMBER SIZE CHART

	CHILD							ADULT				
	2C	4C	6C	8C	10C	12C	14C	8A	10A	12A	14A	16A
